

Top25 Happiness Countries -2017

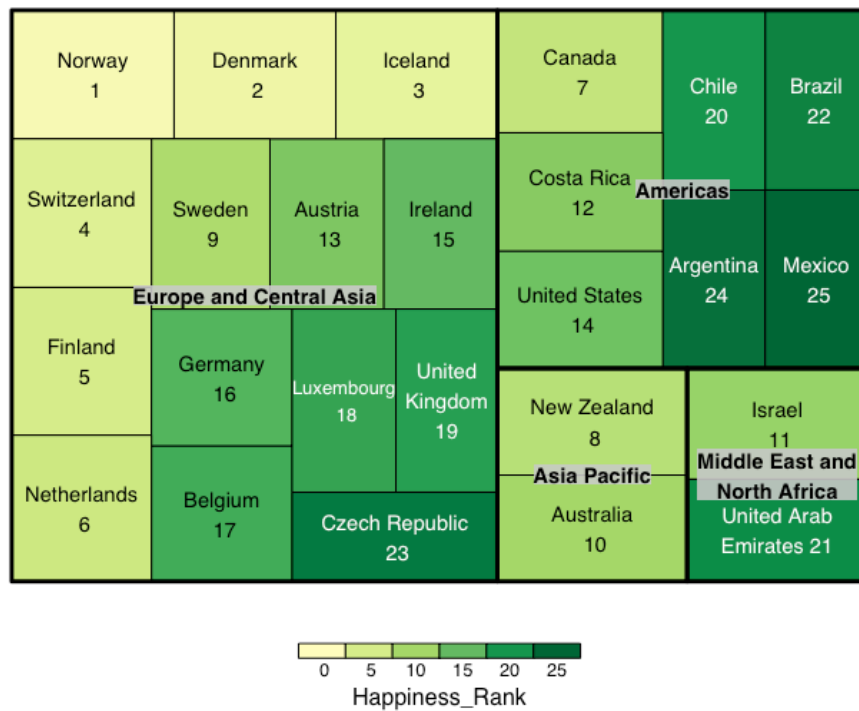

Fig.1 Treemap (captures hierarchical structure in data)

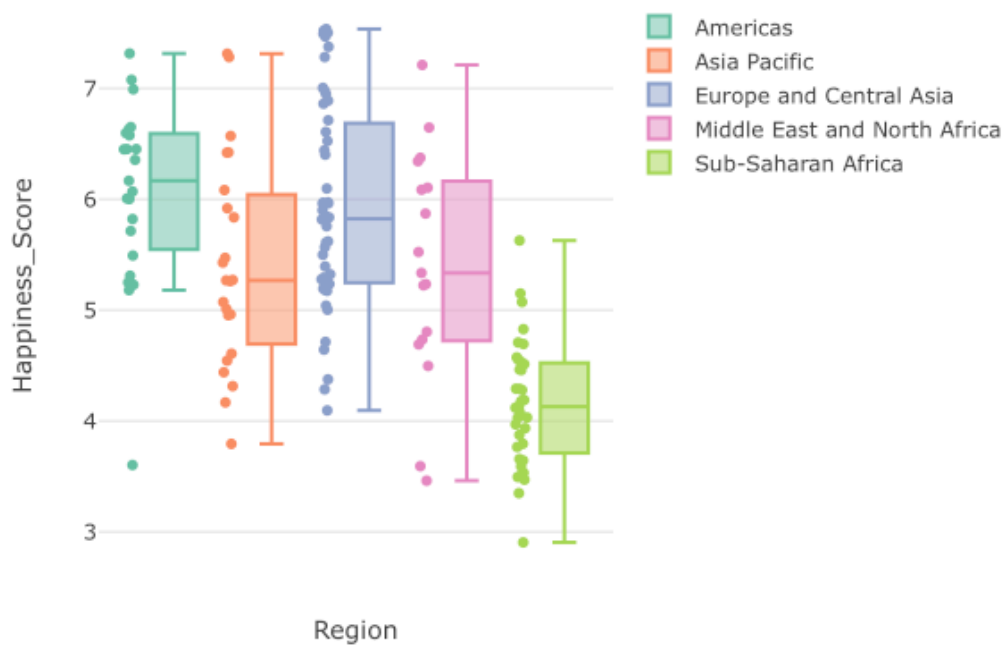

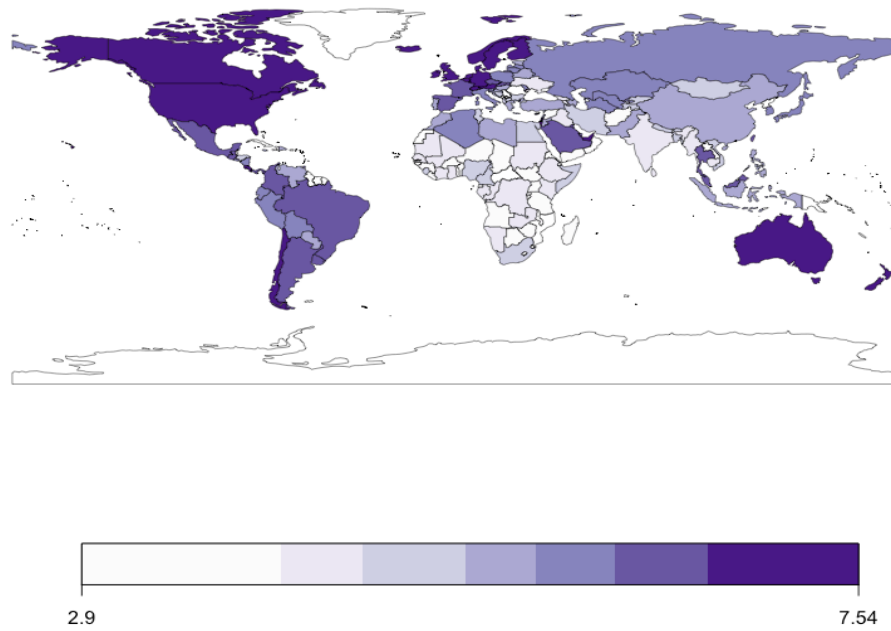

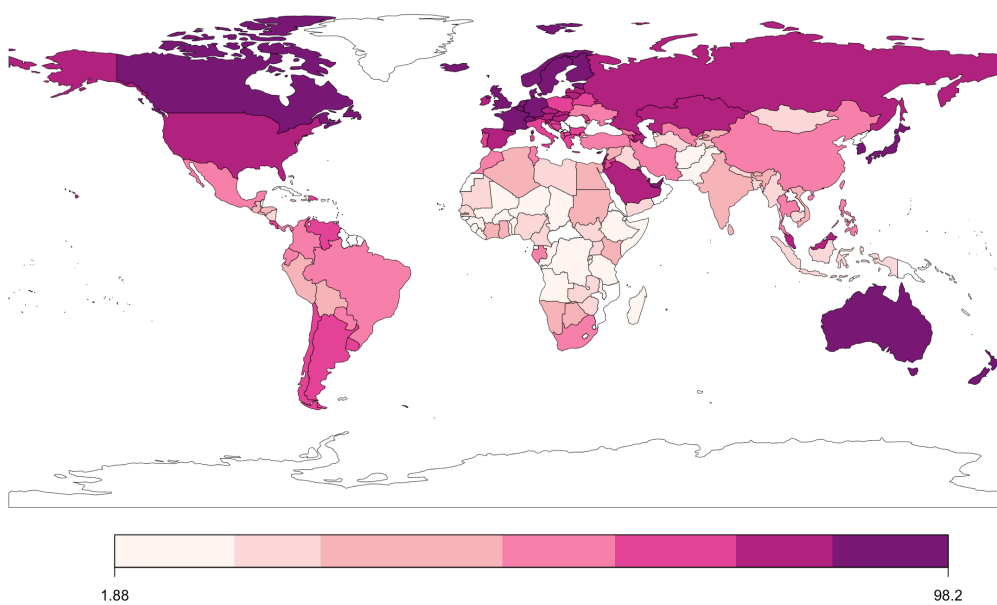

Fig.2 Boxplot shows that people in Americas are happiest on average. Note that the spread across regions are comparable

**World map for Happiness**

**World map for Internet coverage**

*Fig.3&4 World map of Happiness vs World map of Internet coverage*

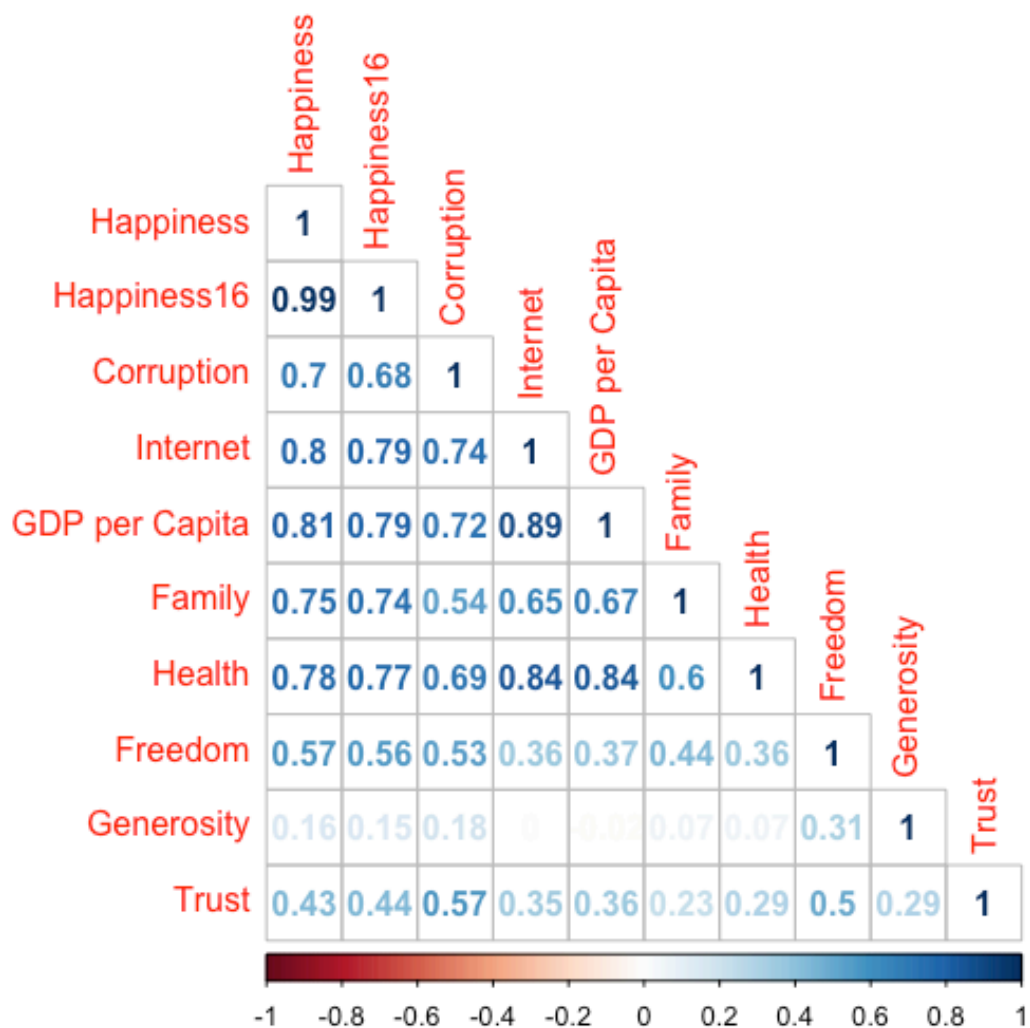

Fig.5 Correlogram shows that Internet coverage has high correlation with happiness score as well as other factors. Interestingly, Corruption and Trust are not highly correlated

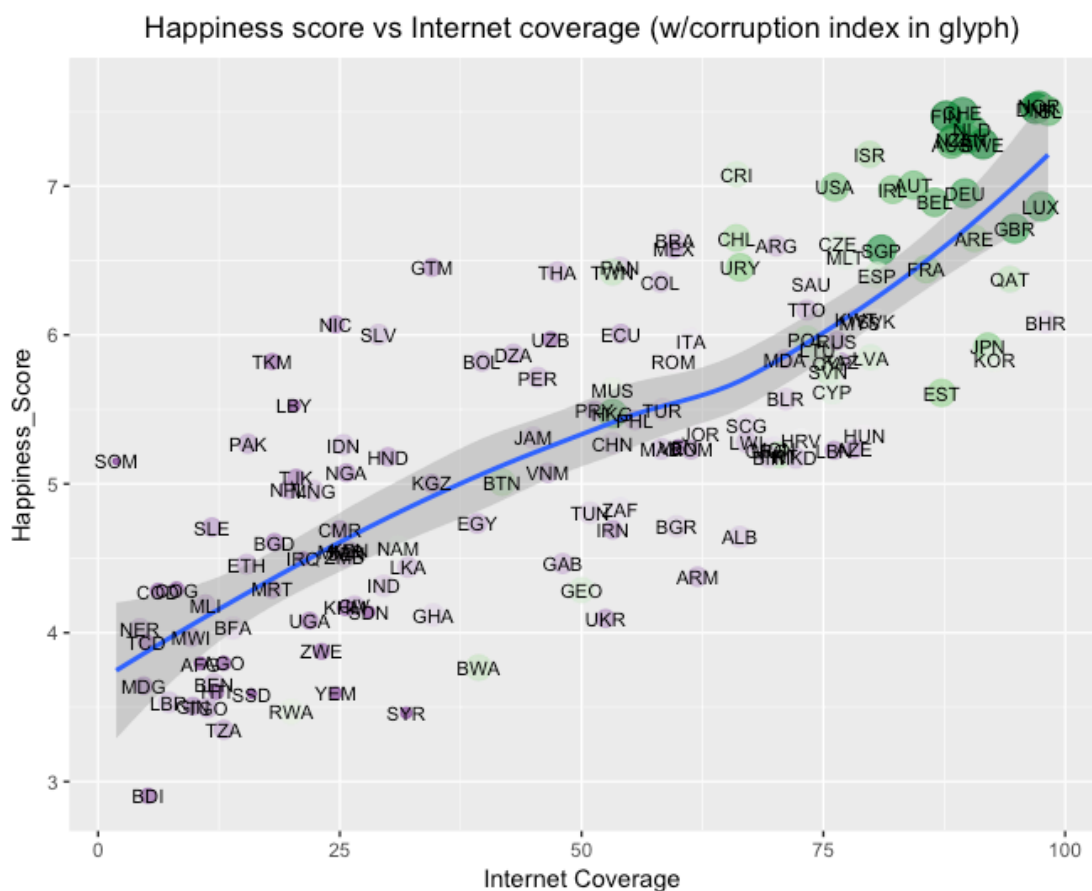

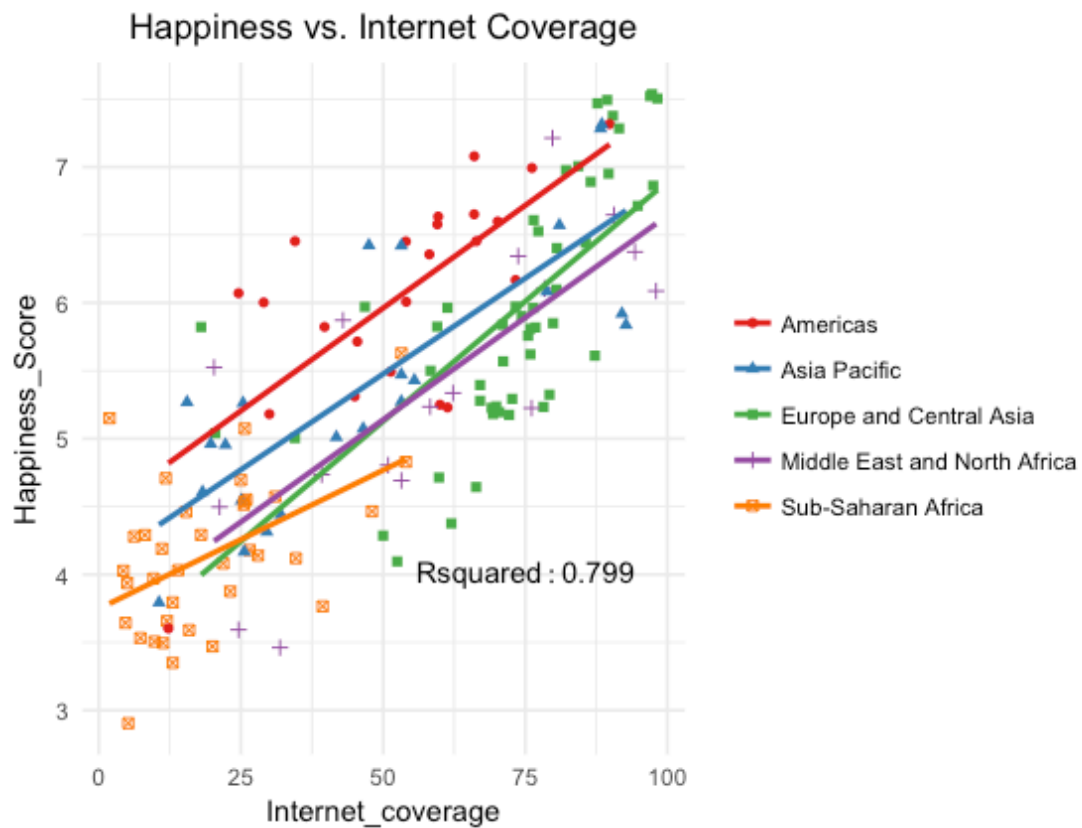

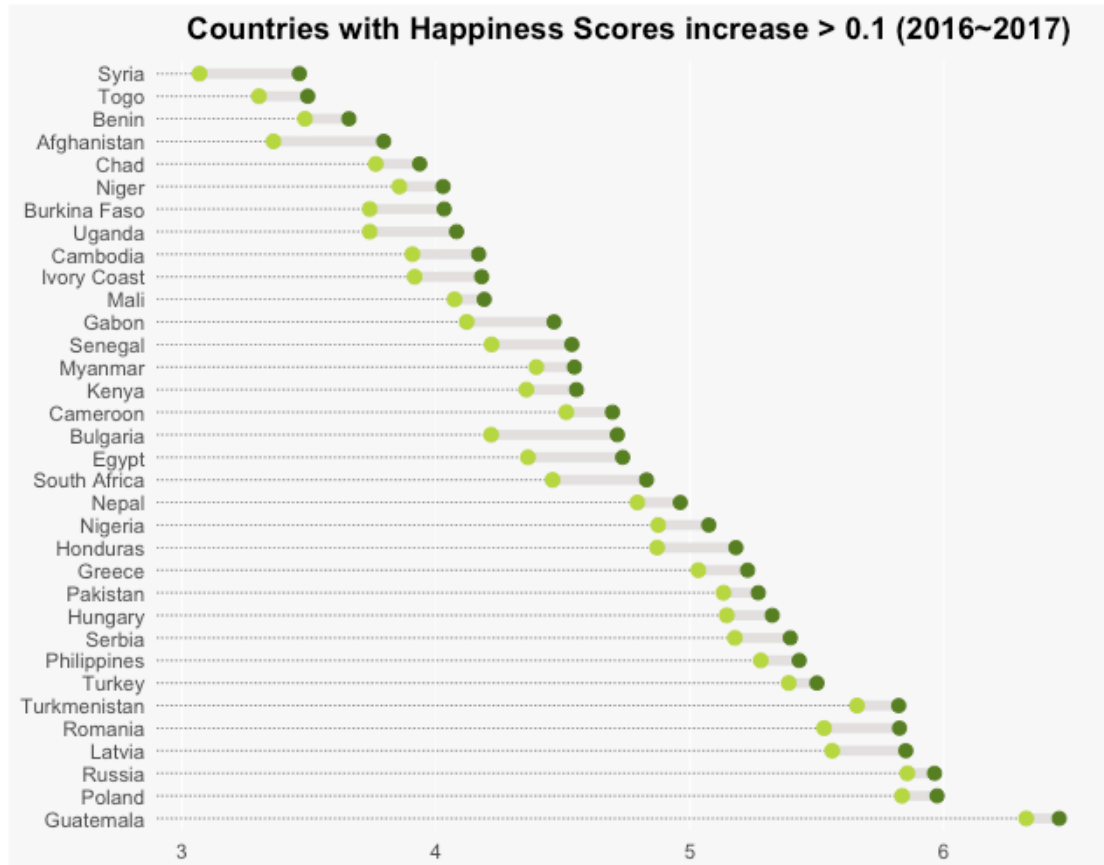

Fig.6&7 show that relationship between Internet coverage and happiness scores is linear and roughly same across regions.

*Fig.8 Variation of the dotplot suggests that countries with lower happiness score in Y2016 tend to have higher increase*
